A Bad Wreck!

But not so bad as it might be, nor so bad but what it can be thoroughly repaired by ALLEN, as skill and experience, good workmanship, new paint and varnish can do wonders. A good vehicle is always worth repairing, if it is repaired right, and that is what we always do. And furthermore our prices are very moderate.

THE WORD STAPLE.

Came to Be Applied to Ar ticles of Commerce.

The word "staple," applied as an adjective to distinguish certain articles of commerce, had its origin in England in the early part of the thirteenth cen The merchants of the staple were the first and most ancient and were so called from their exporting the staple wares of the kingdom-namely. wool, leather, skins, lead and tin. The king's staple was established in certain towns, and certain goods could not be exported without being first brought to those towns and rated and charged with the duty payable to the king. The grower of wool contented himself at first with the sale of it at his own door or at the next town. Thence arose a class of men who bought it from bim and became a medium between the grower and the foreign cloth merchants. In 1319 the company had the legal form of a corporation and was the oldest mercantile corporation in England. Edward H. had for the better collecting of duty on wool ordained that the staple for it should be a certain town in the Netherlands, and Antwerp was fixed upon. It was afterward successively removed to St. Omer's, Bruges, Brussels, Louvain, Mecklin and Calabe. In 1353 the staple was fixed at Westminster, which caused so great a resort of traders that from a village it was rulsed to the dignity of a town. In 1378 it was removed to the place still named Staple inn, in Holborn. Hence "staple goods" are such as have been duly appraised and have paid the regular customs duties.

MILLET'S INFLUENCE

A Rost of Painters Followed Him In Depicting Peasant Life.

In his own words Millet tried to deplet "the fundamental side of men and things." His subject was the peasant life-not the representation of it such as one sees in opera or the pretty, sentimental aspect of it, but the actual drama of labor continuously proceeding through the four seasons, the "cry of the soul," echoing in the hearts of the patient, plodding, God fearing tollers. Everything was typical, We have spoken of his "Sower." Of another picture the critic Castagnary wrote: you remember his 'Reaper?' He might have reaped the whole earth!"

Everything that Millet did was full of a deep seriousness and sincerity. He never was an "easy" painter, so that his greatness as an artist is perhaps more clear in the black and white than in the colored subjects. Certainly is his crayon drawings, lithographs and etchings he proved bimself to be one of that limited number of artists who may be re-koned master draftsmen. Moreover, the character that he expresses is of that grand and elemental quality which sometimes reminds us of Michael Angelo.

Millet's influence produced a bost of painters of the peasant, among whom the strongest are the Frenchman L'Hermitte and Israels, the Dutchman. These like him, have represented their subject with sympathy and with understanding also. St. Nicholas.

The British Speaker.

only does the speaker of the house of commons enjoy the material benefits of a lordly residence at Westminster palace, a salary of £5,000 a year, £100 a year for stationery and two hogsheads of claret and 2,000 ounces of plate on election, but he enloys the less substantial advantage of By an act of 1689 it was provided that the lords commissioners of the great seal not being neers "shall have and take place next after the peers of the realm and the speaker of the house of commons."-London Chronicle.

An Eye Test.

Most people believe that they see the same with both eyes. That this is not the case one can easily convince himself by the following simple experihand or a bandage and let the experimenter attempt to souff out a candle suddenly placed within a few feet of him. He will almost invariably miss the flame, either overreaching, underreaching or putting the fingers too far to the right or left of the flame. With both eyes normal and open the accommodation for distance and direction is

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe If this dose does not check the bowels, give Chamberlain's Colic. Cholera and Diarrhoea Remedy and then a dose of castor oil and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procur-ed at once and kept ready for instant use as soon as the first indications of any bowel trouble appears.. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of choleara infantum. For sale by F. J. Ramsey, W. B. Frame, Bonner & Bon-ner and Ardmore Drug Co.
